March 12th of 2004*

Innovations-Award at the KWF Summit 2004

The KWF is offering an Innovations-Contest for the 2004 Summit. All exhibitors can participate.

Innovative forest-technological developments of exhibitors will be judged by a neutral expert committee at the KWF Summit 2004. Products promising success will be awarded with the KWF Innovations Medal. Minister of the Environment of Hesse Wilhelm Dietzel will officially hand it over in a ceremony in the KWF Congress Tent (centrally located on the fairgrounds) on June 17th.

Interested companies have to register their innovations by April 15th of 2004 in order to participate. Entry forms will be sent out to all exhibitors, but can also be downloaded at www.kwf-tagung.de or requested at the KWF (poguntke@kwf-online.de, Tel.: 06078/7850, Fax.: 06078/78539).

All submitted innovations will be forwarded to the trade press and publicized online in a brief „Innovations List“ about five weeks prior to the KWF Summit Opening. The Medal-Award-Ceremony on June 17th will lift the secret of which innovations received recognition, accompanied by detailed explanations of the expert committee.

The innovation list will be available to the visitors at every information booth during the fair.

Participation pays:

- ✓ The trade press will be directed to the fair highlights early on.
- ✓ Visitors and press receive a handy Innovation List Guide before and during the fair, a handy schedule showing the most important stations.
- ✓ The sound assessment of the committee delivers valuable indications to innovations and trends of the trade.

Whoever participates, influences what people will talk about!!

R. Hofmann, KWF
